

AMENDMENTS TO THE SPECIFICATION

Please amend the Specification as indicated below:

Page 17, lines 20- page 18, line 3:

Referring now to FIGURE 5, there is depicted a flowchart of an example process for guiding goal creation according to an embodiment of the invention. The illustrated process begins at block 20 with goal management system 10 running on data processing system 18. Specifically, referring also to FIGURE 6, the process starts with goal management system 10 communicating the client 19 to cause client 19 to display a graphical user interface (GUI) screen 100 that includes graphical objects, such as a create tab 102 and a ~~create~~ Create a New Goal button 104, for initiating the creation of a goal. Preferably, in a preceding step, ~~and~~ an individual at claim 19 has authenticated himself for goal management system 10, for example by logging in with a user identifier and password.

Page 22, lines 3-8:

Once the individual has edited the sample content as desired, selecting ~~complete~~ Finish Goal Editing button 144 in FIGURE 13 causes goal management system 10 to save the new goal in database 16, as indicated at block 72. The process then returns to block 22, to allow the individual to begin creating another goal.
